Dear Dave,

If I do not repond to what you send that I am glad to get, I am glad to get it and I'm deep into an entirely different kind of book the rough draft of which I want to complete as rapidly as I can so I can go back and read the ms. of the one not yet published.

Of those identified with the new outfit, from which I've heard nothing and hope I do not, I like Wecht but he has been so busy for all these years he has not had time to master the information that is available. He has gone over the end a few times and I think does again in associating with some of these guys.

I remain interested in any promos or announcements of the coming flood of books, if you see any.

Thanks and best wishes,

Harold
